MAIN BUILDING
LeResista Corsets
Shown Here on Living Models

They are demonstrated by Madame De Peyster in a series of talks in the Fifth Floor Auditorium, from 10 to 12 noon and 2.30 to 4.30 P. M.

Madame De Peyster's lecture is both a health and a fashion talk.

"I feature the 'La Resista' Corsets," she says, "because that wonderful Spirabone

which is more supple than the muscles of the human body, is used only in them. It is a bone made of spirally woven steel wire which cannot break nor rust; it gives full play to the body and the fashionable 'easy' lines as well. 'La Resista' are the most graceful corsets made, and the most comfortable."

Madame De Peyster also shows how to put on and adjust a corset—a thing few women know how to do properly—using a stout, a medium and a slim girl as examples.

THE FIRST TALK WAS GIVEN THIS MORNING, AND GREATED MUCH INTEREST. NO CARDS ARE REQUIRED.
